The ultimate purpose of our human life is God realization.

The present life of the human being is the result of past desires.The desires,unfulfilled in the present life will be brought forward in the future birth.Chandhogyo Upanishad tells;Desire for only "Brahma Jnana",desires in the mind,soul.And other delightful desires are to be aimed at only to achieve the knowledge of the supreme God(Brahma Jnana)".

'HOW TO KNOW GOD ?

Yogam(Yoga),Vaithyam (Natural medicine),Jyothidam(Astrology) and Nyanam(Mystical Knowledge) must be master to know GOD'.

As per Tantraa philosophy there are eight bondages/chains which bind soul to the Maya.These bondages are Ghrina(Hate),Lajjaa(Shame),Bhaya(Fear,shankaa(Doubt),Jugupsaa(censure/reproach),Kula (caste), Jaati(creed) and Sheela (Modesty).Any consciousness which is bound by these 8 bondages is called Jiva (Individual soul).But to liberate ourselves into universal consciousness,this bondage has to be removed.The consciousness who is free from all these chains is called Sadashiva(Universal consciousness-Free soul/God).Lord Rama says in Ramcharitmanas.

**Nirmal guni jan so mohi pawa
Mohi kapat chhal chhidra na bhava
pious and purifed souls reach me
Because I do not like cunningness,selfishness
and pride.**
