Top Secrets of the Vedas

"Seeing our confusion, ancient sages like Parashara, Jaimini and Bhrigu bestowed the great intuitive science of astrology on humankind. In India astrology is called the "eye of the Veda" because with its help we are no longer blind to the forces of karma that drive our lives and determine the circumstances we live in, as well as shaping our attitudes and relationships. The sages themselves don't need astrology because they can see directly into the heart of reality. It allows us to foresee the challenges and opportunities ahead as we pass (or fail) the curricula of the Cosmic University."

Indian Vedic Horoscope

A horoscope, in its true meaning, is the construction of your birth chart which shows the exact location of planets in a preset format.

Horoscopes are cast on various different techniques in the Indian Vedic, western, Greek, Middle Eastern and Chinese system.

The India vedic system is by far the most accurate and sophisticated method.

How Indian Horoscope is Superior to other System

The birth chart cast on the Indian System is truly unique since the Indian system makes adjustments for the fact that our Zodiac / Universe is moving and not fixed (by the Big Bang theory of creation of Universe - this system is following for more than 7000 years, proving ancient Indians had a great grasp of astronomy before any other civilization).

Also the Indian vedic system takes into account that the zodiac is elliptic and not circular due to which the twelve houses in a birth chart are not 30 degree each but varying according to the time of birth. Due to these differences the birth chart cast on the Indian system would come out different from that done on any other system AND much more accurate !

To QUOTE an example, there could be a chart cast on the western system with MOON in Sagittarius on 10 degree in the 9th house, making the person : WISE, WELL KNOWN, FRANK, OPEN MINDED, LUCKY, HAVING INTERNATIONAL REPUTE, HAPPY WITH REGARD TO MOTHER.

NOW, if the same birth details are used to construct the chart on the Indian vedic system, the MOON will fall in Scorpio 16th - 17th degree, 8th house, making the person petty, unhealthy, complexed, problems with mother, low on talent, insignificant and having a problematic married / love life.

" WHY DO WE USE THE MOON SIGN INSTEAD OF SUN SIGN / ZODIAC SIGNS "

In Astrology Moon is the signifactor of the MIND. Since Moon is the HEAVENLY BODY CLOSEST TO THE EARTH, the magnetic influences of all other planets reach EARTH through the Moon.

Also since the mind is ruled by Moon and all influences on the HUMAN BEING whether PHYSICAL, MENTAL, PSYCHOLOGICAL OR SUPERNATURAL effect the HUMAN MIND. The HUMAN BODY which is ruled by SUN may or may not respond to the mental / psychological / supernatural influences.

THIS IS THE REASON THAT INDIAN ASTROLOGY RECKONS THE PLANETARY MOVEMENTS BASED ON YOUR MOON SIGN (RAASI).

You require your Vedic Moon Sign for:

- All horoscope readings on this website such as Daily, Monthly or Annual reading
- Finding your correct name letter for luck
- Astrological compatibility for love, marriage and relationships
- Getting in-depth and unique reading for yourself

Love / Marriage Compatibility

Curious about your love life? Get answers to all your romance, relationship and marriage related questions like, when or what kind of person will I marry? Will I have a happy married life? Love or arranged marriage?

Love Marriage Reports

Love and romance is what covers more than any other other topic in the history of this world. The system of Indian astrology has the most sophisticated & amazing system of analyzing the matching based on 10 criteria like thinking, personalities , sexual level etc (More described below).

ASTROLOGY LOVE COMPATIBILITY REPORT

On a point system of 1 to 36 points

- Mental (thinking & intellectual) Compatibility.
- Physical compatibility in term of sexual compatibility.
- Wealth & luck generated due to the match.
- Longevity of attraction between the couple.
- Longevity of life of each spouse - By checking the chart for Mangal Dosha.
- Growth of family / Children etc.

All these factors combine together to make up 36 points or GUNAS. If a couple scores less than 18 then the match should be rejected .If the score is between 18 - 24, then the match is acceptable (average). If the score is between 25 - 32 then the match is very good (above average). If the score is above 32 then technically the match is excellent but a lot of other factors have to check since both persons will be of same nature and that is not conducive to long-term relationship.

ONE ON ONE ASTROLOGY CONSULTATION ON ROMANCE / LOVE MARRIAGE MATTERS

There are usually Three questions about Love Marriage.

- **Are we compatible ? Should we get married ?Is he / she the right person ?**
- **When will I find my love of life ? When will I get love married ?**
- **What would my spouse be like ? The probable Physical, thinking, background, profession attribute can be told.**

Besides any other questions too can be put forward on this topic like delayed marriage, second marriage, divorce etc.

Varshphal

Detailed predictions of your birth year in a nutshell. Know the positive and negative periods and get a datewise break up of the 12 months, year lord's strength & Muntha as per your Birthday.

Varshphal

Indian Annual Birthday Report

The Indian Birthday chart known as Varshphal in Indian is an excellent report on the event to unfold in the birth year ie from your time SUN enters the position at the time of your birth to ONE COMPLETE YEAR after that. ALSO KNOWN AS SOLAR RETURN chart.

Once you ORDER your annual birth report you get all the following :

- An opinion of our expert about the positivity or negativity of the year in a nutshell on the ancient method of determining the planet which is the year lord & will show maximum results this year.**
- A DATEWISE breakup of the year into NINE parts covering the NINE planets which will rule you for the different parts**

of the year and their results and possible events that will take place.

- **Determining the exclusive Muntha which determines again the quality of luck to be enjoyed this year.**

WHAT IS MUNTHA:

It is a very peculiar part of the Indian Astrological system for the yearly chart decides the quality of luck to be enjoyed during a particular birth year.

For example, the Muntha falling in house number one will be "making the year eventful, with some new development which might cause extra work and positive level of tension and responsibility."

In complete contrast to this if the "Muntha" falls in house number seven, one will be "suffering for the major part of the year, specially the first seven months, with problems regarding career and spouse. There would be certain periods of ill health too."

A Varshphal in Ancient India was a READY RECKONER FOR GOOD and BAD periods throughout the year. (It is a practice with Indians with traditional backgrounds now too!) This helps you plan your various parts of the year keeping the Divine effect of planets on you in mind.

It is advisable that the Varshphal is made a few days before your birth date since the period of prediction is the complete Birth Year.

E.g.: - if your birth date is 25th September then your Varshphal would be made out for 25th September of current year to 24th September of Next year.

Astrological Remedies

This is the most mysterious and complicated part of Indian Astrology with earliest references coming from the Vedas , making the first literature available even before the first known text on Indian Astrology was discovered.

The Astrological Remedies can Broadly be broken up in three parts :

- Mantra - It is the recitation of a particular sound repeatedly to overcome the problems set forth by the planet which responds to that particular sound. The basis of mind in its objective and structural aspect is the power inherent in different combinations of sounds. How consciousness differentiates into different states of mind is an interesting question and is impossible to know in the real sense until we can raise our consciousness to the level where this differentiation takes place and the manner in which it is brought about. Each root word generates a sound that activates a different centre in the human body that correlates to the particular planet.
- Tantra - At times when the Mantra does not work because of difficult malefic position of planets in a horoscope in that case Tantric sound patterns work like surgery and clears most of the hurdles.
- Yantra - This is a Mystic diagram often put up as a plaque. Some Yantra are a part of Tantra practice since Yantra is one of the cardinal principles of Tantra. This

practise is followed when a particular remedy has to be practised over a long period of time and the querist is unable to perform other remedial measures due to ill-health, lack of time or distance.

Besides this there are the common remedies in form of Gems & Metals in combination worn to help tide over malefic effects of planets.

We at this Website make it our endeavour to stick to the predictive part of Indian Astrology and if the problems are moderate then the person should pray to god , lead a honest life to tide over the difficult part till the bad phase is over.

But in some severe cases it has been noticed that the Malefic Effects of bad planetary combinations are such to push a person into abnormal mental stress, Giving life threatening ailments or push a person to the brink of bankruptcy. Also in case of problematic birth stars a child is destined to lead a hollow life unless propriatory measures are taken to rectify the same (Birth in Moola Nakshatra etc).

Even marriages where the matching was not adhered to attract a lot of problem which can partially be solved with the help of remedies.

In case you feel that you are going through an unfavourable phase and would like us to examine your birth chart to

suggest the Remedy please click on the consultation link below with the problems you are facing currently.

We shall only be suggesting a remedy only if there is a genuine need for the same. PLEASE UNDERSTAND THE REMEDY CANNOT BE SHORT ROUTE TO SUCCESS BUT TO HELP YOU TIDE OVER DIFFICULT ASTROLOGICAL TIMES.

Our remedies can be any of the following options:

- Mantra
- Yantra or Tantra (Maybe at an extra cost)
- Gems or Metals - rings or talisman (as mentioned in ancient texts) : Suggestion only, Cost if any in procuring for you will be communicated to you.

In case there is reservation against any systems to be followed or against extra cost to be incurred then please mention that as part of your question.

Birth Time Rectification

Not sure of your birth time ? Get your accurate birth time, essential for vedic astrology. This highly skilled calculations are

carried out by our experts by reverse engineering birth data from 5 important life events.

Birth Time Rectification

Vedic Astrology has specific tools for working out an unknown birth time by means of going backwards based on the events that happen during the life time of the person.

Specific events are reflected by sub divisional charts such as Navamsa (Life Partner and general events), Dasamsa (career), Chaturthamsha (Destiny), Shastiasa (general events) etc.

All these sub divisional charts are sensitive sometimes, to even 5 seconds. Based on these sub division charts, an expert vedic astrologer is able to reverse engineer the time of birth based on the events.

We require at least 5 major events which have occurred already to work back the unknown birth time.

These could be on the lines of:

- Date of Marriage / major relationship.
- Date of birth of children.

- Major purchases / acquisitions like real estate / cars.
- Movement / relocation within or out of country.
- Any significant event which changes life.
- First employment.
- A financial wind fall.
- Injury / accident / surgery.
- Major illness.
- Status of parents: Living or not.
- Date of demise of parents / family member.
- Financial losses.
- New Business/ New Job.
- Inheritance.
- Any major event you find significant.

Further, we will require a date, time band of the time of birth. For example, you could let us know the date of birth and a time frame of may be 1:00 A.M to 6:00 A.M.

This will be like having the basic details and thereafter trying to fill in the blanks.

You can go ahead and request your birth time rectification based on:

Date and Place known, Time Unknown

Recommended when you do not know the birth time or are unsure of the birth time, but are sure about the date and place.

USD 54 / Rs.2700

Place Known, Date and Time Unknown

Varshphal

Indian Annual Birthday Report

The Indian Birthday chart known as Varshphal in Indian is an excellent report on the event to unfold in the birth year ie from your time SUN enters the position at the time of your birth to ONE COMPLETE YEAR after that. ALSO KNOWN AS SOLAR RETURN chart.

Once you ORDER your annual birth report you get all the following :

- An opinion of our expert about the positivity or negativity of the year in a nutshell on the ancient method of determining the planet which is the year lord & will show maximum results this year.
- A DATEWISE breakup of the year into NINE parts covering the NINE planets which will rule you for the different parts of the year and their results and possible events that will take place.
- Determining the exclusive Muntha which determines again the quality of luck to be enjoyed this year.

WHAT IS MUNTHA:

It is a very peculiar part of the Indian Astrological system for the

yearly chart decides the quality of luck to be enjoyed during a particular birth year.

For example, the Muntha falling in house number one will be "making the year eventful, with some new development which might cause extra work and positive level of tension and responsibility."

In complete contrast to this if the "Muntha" falls in house number seven, one will be "suffering for the major part of the year, specially the first seven months, with problems regarding career and spouse. There would be certain periods of ill health too."

A Varshphal in Ancient India was a READY RECKONER FOR GOOD and BAD periods throughout the year. (It is a practice with Indians with traditional backgrounds now too!) This helps you plan your various parts of the year keeping the Divine effect of planets on you in mind

It is advisable that the Varshphal is made a few days before your birth date since the period of prediction is the complete Birth Year. E.g.: - if your birth date is 25th September then your Varshphal would be made out for 25th September of current year to 24th September of Next year.

Duration

- 1 Year Report - USD 30 / Rs.1500
- 2 Year Report - USD 54 / Rs.2700
- 5 Year Report - USD 120 / Rs.6000
