Mantra Bhava

By Maha Yogi Paramahansa Dr.Rupnathji

1. Jupiter is the karaka for the mantra bhava. Ninth from the Jupiter brings Guru in the one's life.

The Guru in one's life is represented by the chara bhratrkaraka. What way the native associates with the guru can be seen from the chara bhratrkaraka in the rasi chart.

2. When benefics are placed in the fifth house the person is wise and principled. He is inclined towards Japa or Meditation and is spiritual and well behaved.

3. A strong fifth lord in conjunction with Jupiter or Mercury placed in a trine or a Kendra endows the native with Intelligence or wisdom. Mercury or Jupiter's association with fifth house makes a person a scholar and an author.

4. Preponderance of masculinity on fifth house or lord gives the desire to worship a male deity. The masculinity can be indicated by 1) Odd sign and 2) Male planet (Sun, Mars and Jupiter).

5. Association (conjunction, aspect, exchange) of malefic planets (Saturn, Mars and Rahu) the malefic is pulled towards kshudra devata, spirits and departed souls. However, if there are influences of benefics (Jupiter, Venus, Mercury, Moon and also Sun) on the fifth house/ lord, the native likes to worship Sattvik devatas and has a nature that of a sadhu.

6. When the lord of the fourth house is in fifth, the native would be a devotee of Vishnu (Jataka Parijata, JT, BPHS).

7. When the fifth lord is associated with Mercury, the native worships Mahavishnu.

8. When the twelfth lord is in second or eighth house and is related to fifth lord then the native is devoted towards Sattvik deities.

9. When the fifth lord is in Leo and aspected by Sun, then the native will meditate upon Panchakshari mantra and attain blessings of Shiva (Suka Nadi).

10. If Moon is in fifth house and fifth lord is with Mars, the native worships Kartikeya.

11. If Jupiter is in fifth house and the fifth lord is in Virgo, the native becomes a worshipper of mata Gouri.

12. When the fifth lord is placed in the seventh house, the native becomes arva dharma samanvita and respects all religion.

13. When the eleventh lord is in fifth house, the native is religious.

14. When the twelfth lord is in fifth native visit shrines to get a child.

15. The deities governed by different planets are Sun- Shiva; Moon- Gouri; Mars- Skanda; Mercury- Vishnu; Jupiter- Sadashiva, Mahavishnu; Venus- Lakshmi; Saturn- Narayana; Rahu- Durga; Ketu- Ganesha. If there are influences of these planets on the 5th house or the fifth lord, then the native would be attracted towards worship of the deity signified by different planets.

Can Signatures Affect your Destiny?

by Shastrishree Dr.Rupnathji

Waqt ki har shay gulaam, Time rules every person.

Man has always been a slave of time, but the nature has also given man an opportunity to make (60% of) his destiny.

How many times does an ordinary man write his signature in his complete life?

And how many times does he write his certificate name spelling?

I do not want to keep asking questions from my respected readers but just want to show them the importance of our signatures. We use our signature infinite times whereas the certificate name is used only 1000 or 2000 times in our whole life.

By now, I expect that the readers must have understood that Numerology is based on vibrations and phonetics. Every time we write something or spell it a vibration is created. This vibration has a certain impact on our life. So, it is clearly understood that our signature also plays a significant role in shaping our destiny.

Recently I corrected the name of Kumar Gaurav (the actor in bollywood), and have corrected it to Kumarr Gawrav, which will be shown in his next Hollywood venture. He has struggled a lot after his big hit in bollywood.

Do you know the cause of his failure? The cause has been his name spelling and above all his signature. The way he signed was wrong. His underlining was in the wrong direction. Even though he is blessed with a lucky date of birth, he suffered because of his incorrect name spelling and his wrong signature.

While guiding him I had to make sure that his new name spelling is not only perfectly compatible with his date of birth but also his signature was made perfect, so that the hurdles in his path of success could be removed.

In numerology we take into consideration not only the spelling that is written in the signature but also the way of writing (which is indeed a part of graphology).

Few weeks ago, a lady - Sarita Jain - approached me to get her name corrected. After analyzing her name numerologically I corrected her spelling and told her to sign as - Sarita Jain - and not as S. Jain or Sarita. I also check the way one signs, i.e. the slant of the letters, their pressure, size, breadth, height and spacing between the letters along with a myriad of other signs.

One very significant part of the signature is - the underline. How do you mark a sentence as important? : Simply by underlining it. This means

that the underline has a great significance, when placed below a sentence it creates an importance. Then will it not affect your signature?

Actually, underlining is very significant in a signature and due precaution must be taken while underlining because a perfect underline might make you a millionaire but a wrong movement of the underline may ruin you. As I have already mentioned about the mishap in case of Kumarr Gawrav. But this does not mean one must not underline. What is important is a proper guidance and consultancy from a Numerologist.

Another big mistake takes place when dots are placed below the signature. Proper placement can make you whereas wrong placement might make you indecisive and aimless.

The starting and ending stroke of the signature is also of great importance. Proper care is to be taken in this regard also.

When people ask me: Can I carve (make) my destiny? My answer to them is: You are already carving your destiny, whenever you use your name spelling or make a signature. The risk involved is that one wrong stroke of your chisel might ruin your creation. So, please consult a specialist before you take any significant move. Because, as I always say- everyone knows to walk I just guide him where to move. And I think that is what each and everyone wants.
